

Poster Token (PT)

The token, on which the daily profit is calculated! We pay 10% of the amount of each order of our online store MirPosterov.ru.

How it works

1. The investor buy Poster Tokens on favorable terms.
1st week: bonus +25%
2nd week: bonus +10%
3rd week: bonus +5%
2. Poster Token allows the investor to receive revenue right after the issue is completed, even before the release of the token on the crypto-exchange. We pay investors 10% of the amount of each order our online store!
3. Our business is developing dynamically. In the future, the yield of the Poster Token will inevitably only grow. And it is quite obvious that this will lead to an increase in the exchange value of the token itself.

Prerequisites for the growth of the cost of the token

- As the business develops and the number of orders increases, there will be an inevitable increase in the Poster Token's yield. And it is quite obvious that this will lead to an increase in the exchange value of the token itself.
- After the ICO, the PT token will be freely traded on exchanges. In our plans, the expansion of the presence of the token on different exchanges.
- The development of the world's crypto currency will promote their active use in the global economy. Therefore, the value of digital assets in the future will only grow.
