## 1. Poster Token (PT)

Poster Token (PT) — token, on which the daily profit is calculated! We pay investors 10% of the amount of each order our online store MirPosterov.ru.

What are the holders of the Poster Tokens (PT):

- Investor's personal area
- Personal account with the ability to make a profit on the wallet Ethereum
- Online tracking of all incoming orders
- Participation in the discussion of business details
- Participation in the management of the online store (for large investors)

#### What is MirPosterov.ru

<u>MirPosterov.ru</u> — online store posters, Framing Workshop. In our store there are thousands of popular images that can be ordered in different sizes, to decorate them in frames and a mat.

We deliver goods to anywhere in Russia and CIS countries. For our customers, more than 1300 self-delivery points are available, as well as various courier delivery services.

We constantly improve the customer service, keep excellent prices with the same quality.

We are ready for a serious business scaling!

## 2. How it works

The investor buy Poster Tokens on favorable terms.

1st week: bonus +25% 2nd week: bonus +10% 3rd week: bonus +5%

Unlike most ICOs, Poster Token allows an investor to receive revenue right after the issue is completed, even before the release of the token on the crypto-exchange.

We pay investors 10% of the amount of each order our online store!

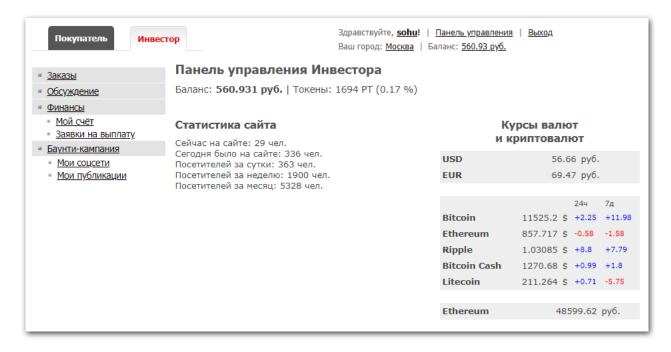

Our business is developing dynamically. In the future, the yield of the Poster Token will inevitably only grow.

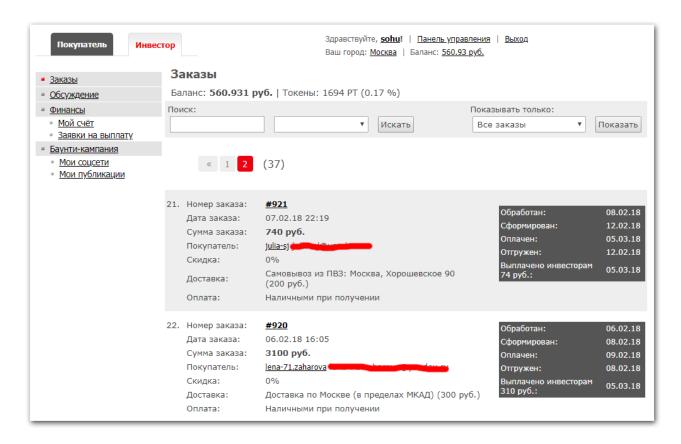

And it is quite obvious that this will lead to an increase in the exchange value of the token itself.

## Investor's personal area

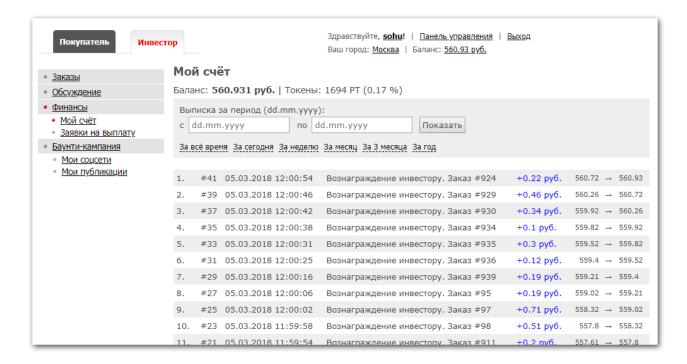

Each investor gets access to his personal office, where he will be able to monitor all the necessary information in real time.

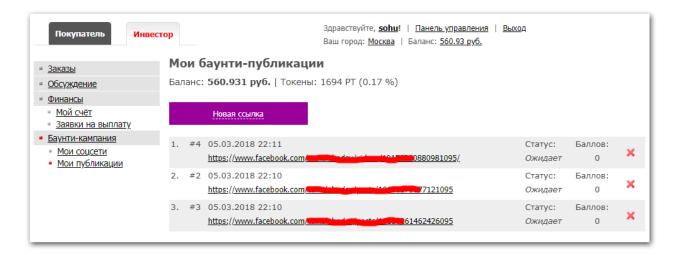

For example, to monitor the receipt and processing of orders online:

### Manage your personal account:

### Participate in the bounty campaign:

Well and still a lot of other possibilities.

Our team is constantly working on customizing the basic engine, improving the design and convenience of the functionality for users.

### Prerequisites for the growth of the cost of the token

- As the business develops and the number of orders increases, there will be an
  inevitable growth in the yield of the Poster Token (PT). And it is quite obvious that
  this will lead to an increase in the exchange value of the token itself.
- 2. After the ICO, the PT token will be freely traded on exchanges. We plan to constantly expand the presence of the token on different exchanges, as the project develops.
  - It is also planned to launch the bot in the Telegram instant messenger for the sale and purchase of Poster Token (PT) tokens based on p2p technologies.
- 3. The development of the world's crypto currency will facilitate their use in the global economy and the transition to mutual settlements between all participants in the crypto currency. Therefore, the value of digital assets in the future will only grow.

<sup>\*</sup> The budget for advertising, PR and website promotion will be evenly distributed for 1-2 years (depending on the amount collected). The money will be spent on publishing in the media and promoting the project on topical resources.

<sup>\*\*</sup> Business development includes the purchase of new equipment for printing posters and for a baguette workshop, renting a new room, recruiting additional staff, expanding the functionality of the site.

<sup>\*\*\*</sup> The stabilization fund will be necessary for the sustainability of business and for smoothing internal and external factors of influence on the life of the company.
